

Announcing a new seminar/workshop:

Brilliant Bosses

& "THE ONE & COOL THING"

After more than two decades of studying great bosses, Dale Dauten has assembled his favorite leadership ideas and strategies and turned them into a lively presentation that's sure to inspire any manager to experiment and excel.

HERE'S WHAT YOU CAN EXPECT:

Creative Leadership Techniques from America's Best Bosses...

Questions to inspire new thinking...

Where's the worst place to find great employees?

Did you offend your best clients and not know it?

What do you do to transform "pretty good" employees into great ones?

How do you clear a backlog of work and have fun doing so?

When is the worst time for a boss to be nice? The best time?

What's the one compliment that changes lives?

And the challenge to become a "brilliant boss"...

Dauten says: "My goal is to give you a full display of great leadership ideas.

Walk the length of the counter and take all the ones you like.

"BUT, ideas are just nice stories till you turn them into actual innovations.

The Brilliant Bosses workshop includes having each team or manager choose cool

ideas to reinvent for immediate implementation.

"The goal is for each person to walk away with actionable plans toward becoming a "brilliant boss."
